City _____ State _____ Zip Code _____
Primary Phone _____ Other Phone _____
Email Address _____
Primary Physician _____ Phone _____

Responsible Party

Name _____ Phone _____
Address _____ City _____ State _____
Zip Code _____ Relationship to Patient _____

Statement on Insurance

Medicare may cover diagnostic hearing testing services rendered under a referral by your primary care physician. Medicare does not cover any services related to fitting, dispensing, or servicing of hearing aids. Some private insurance companies may or may not cover the fee of audiological diagnostic or rehabilitative services in-portion or in-full. As a Medicare provider, we are obligated by law to charge for all professional services so there is no billing discrimination across patients. Offices that provide free hearing screening may not be qualified to provide full audiological services and are, therefore, not subject to meeting higher State and Federal standards of care. We do not accept Medicaid.

While we will bill your insurance company for diagnostic services, we do not accept assignment so you are ultimately responsible for any remaining balances for all services rendered. We ask that you pay for all services at the time service is provided. Although hearing devices may be an insurance benefit to you, hearing devices must be paid for at the time of fitting. We will assist you in filing the proper forms for reimbursement.

I have read and understand the above insurance statement.
